Small Grants for Gibbon Conservation

The Gibbon Conservation Alliance supports projects directed at gibbon conservation in gibbon habitat countries.

Application Criteria:

- Projects should focus on gibbon conservation or re-introduction of gibbons in adequate locations.
- The grant requested should either make up a significant part of the total budget or be used to finance a smaller part of a bigger project (habitat or ecosystem level), which includes gibbon conservation.
- Funds must be used predominantly for field-based and/or conservation activities.
- Pure research projects will only be supported to evaluate sites for prospective gibbon reestablishments or launching a protective area and only if the applicants are also interested in executing the latter.
- Excluded from grants are: funding for participation in seminars, expeditions and conferences.

Grants:

- Currently our annual grant budget is USD 10,000.–

Application Process:

- Send a detailed proposal describing the project and justify the specific amount for which you are applying. Furthermore state other grants and financial support that you are receiving.
- Also include a short CV focusing on your background and your experience in conservation and field work.
- Send this information to info@gibbonconservation.org until either June 30th or December 31th of every year. We will get back to you within 2 months.

Donations:

Raiffeisenbank Zürich
Limmatquai 68

Konto-Nr.: 6929305
Bankclearing/BLZ: 81487
IBAN: CH32 8148 7000 0069 2930 5

Follow-up to a grant:

As a follow-up to a grant, the Gibbon Conservation Alliance requests a Mid-Project Report within one month after project half-time as well as a detailed Final Report within two months from the end date of the project period.

1. The Mid-Project Report is to include:
 - a. A Technical Section including:
 - i. Brief description of the achievements so far. Did the implemented activities differ from those proposed? If yes, what were the reasons for these changes?
 - ii. Time schedule: Were the substantial changes compared to the original outline? What will be the next steps?
 - b. A Financial Section briefly stating whether the expenditures have been according to the budget so far.
2. The Final Report is to include:
 - a. A Technical Section including:
 - i. Detailed description of the activities covered by the grant. Did the implemented activities differ from those proposed? If yes, what were the reasons for these changes?
 - ii. A list of major accomplishments and challenges faced during the implementation period
 - b. A Financial Section recording all income and expenses, and any variances from the proposed budget
 - c. Original receipts of $\geq 75\%$ of the expenditures
 - d. A selection of relevant photographs taken during project implementation. Our sponsors live in Europe, and the photographs will not only help them to understand what it means to carry out gibbon conservation projects in Asia but may also stimulate them to continue supporting gibbon conservation.

By accepting a grant, you agree to mention the Gibbon Conservation Alliance in all reports, presentations and publications derived from the project. Please use the logo of the Gibbon Conservation Alliance in these reports and presentations.

We look forward to support a diverse range of projects helping save these beautiful species from extinction.
